The Early Learning Advantage

DID YOU KNOW?
 Children who attend free, full-day, high-quality pre-K build a strong foundation for reading and math, engage in science, learn to problem solve, and work together with peers.

Enroll in free pre-k to give your child the early learning advantage that leads to success in school, college and life.

- Newark residents have various pre-k options to choose from in district schools, charter schools, and community-based providers as well as Head Start programming.
- District Pre-K**
 Free 6-hour pre-k in schools managed by Newark Public Schools (NPS).
- Community Based Pre-K Providers**
 Publicly funded, privately managed schools that contact with NPS to offer free 6 hour pre-k.
- Charter School Pre-K Programs**
 Charter Schools are public schools not ran by the NPS. Charter Schools are free of charge and serve all grades.

Head Start
 Head Start is a family-oriented preschool program that offers nutrition, education, health and support services including individualized services, health and dental screenings, family support, community resources and services to meet special needs.

Head Start programming can be found in some district schools and community-based provider settings. Proof of income is required for Head Start. Parents must pre-certified for Head Start before or during the application process at any of the current Head Start locations.

All pre-k programs offer small class sizes, proven curriculum, and certified staff. Children receive high quality learning in reading and writing, math, science, visual & performing arts, as well as health, physical education and social living development.

Applying is fast, free and easy.
In-District and Charter Schools: Apply online at newarkenrolls.org or in-person by completing a paper application at any district school from April 20, 2015 – May 8, 2015.
Community-Based Pre-K Provider: Apply in-person at the provider location between April 20, 2015 – June 30, 2015.

Children must be residents of Newark and be 3 or 4 years old by October 1, 2015 to be eligible for pre-k in the 2015-2016 school year.
