

English II
Summer Assignment Rising Sophomores 2019-2020

Welcome to the 10th grade at Arts High! In order to get the new school year off to a great start, you will have a little bit of summer reading to do. Don't worry - it's a great book and you can even listen to it on your Audible device for just one credit. The book is... *The Secret Life of Bees* by Sue Monk Kidd.

Your assignment is simple: read the book (or listen) and write a one page evaluation of the book. You can write about your favorite character or what you thought about the plot in general or what you thought about the themes or conflicts. The point is to read the book and write a reaction to it.

The real work starts in September. Our first unit will use the novel as an anchor text. There will be multiple assignments as well as an essay and a test. Reading the book over the summer will help us to be ready to go in September.

Happy summer and happy reading!
