

**Luis Muñoz Marín School**  
663 Broadway  
Newark, New Jersey 07104

### Creating a Bitmoji

- Download the Bitmoji app on to your phone
- Follow the steps to create an avatar that most resembles you.
- Save the avatar
- Open google and click on the extensions  icon on the top right hand corner.
- Scroll down and click on the bitmoji icon. Pin it for easy access in the future. Open it and log in. Save your avatar on the computer

### Creating a Google Slide Classroom

- From Google Drive select a new blank slide.
- Begin by adding a floor and walls.
- Then add all the iter items you would have in your classroom.
- Click here for: [-Virtual Room Resources](#)

Once you have created the Bitmoji and the classroom you can begin the process of creating the Hallways. Hallways will be created in Google Sites

### Creating a Google Site

- From the Google Drive Select a blank site.
- Design the site to your liking. There are many layouts and designs to choose from.
- You need to create a site for every grade level/department in your school. This is something that you need to decide keeping your school needs in mind.
- Once you have designed the site, you will begin the process of inserting the Classrooms

### Collection of Classroom URLs

- Collect the URL from all of the teachers and staff. All URLs must be **Public**, otherwise the students will not be able to open them from home. Make sure that the creators have given "access to anyone with the link."
- Insert the links on the site pages.

- Preview the link and make changes as needed.
- Public the site
- Once site is published you will be able to copy its URL
- Make a list and sort of all the URLs in preparation for putting them on the website.
