

#MuteRKelly

The #MuteRKelly movement was created in response to the sexual abuse allegations made against singer producer R Kelly involving women and underage girls that went unpunished. The movement itself is tasked with not only exposing R. Kelly and the countless alleged acts against women of color (more specifically African American females) but also educating the public on the pitfalls of situations like those that have been brought public.

The 16 week course should tackle the following:

- What is sexual abuse?
- Who can be affected by sexual abuse?
- Getting help if being abused?
- Reviewing other sexual abuse cases
 - Public Figures
 - Michael Jackson
 - Bill Cosby
 - Woody Allen
 - Private Figures
- Creating a Campaign
 - Getting Help
 - How to fight it
