

High School Enrichment

High School Musical Theatre

This summer experience is for students interested in Musical Theater - both on stage and "behind the scenes." Students will have the opportunity to engage as performers or production designers based on student interests. Performance training will include singing, acting and movement/choreography. Production training will include stage managing, directing, set design, props, costuming, and marketing. Students will achieve a professional and personal understanding of the arts through rehearsals, auditions, performances, and presentations. The summer will conclude with a full-scale musical production.
