Let's Train our Robot

A 2-day event

October 5th & October 11

at 3:30 PM

Sponsored by:

JOIN BOTH SESSIONS 3:30 PM

October 5th

Explore the Robotic assistive device used to perform minimally invasive surgery in Liberty Science Center's Live From Robotic Surgery. View a compilation of surgeries to understand how the robot is used to improve a patient's life.

October 11th

Connect with scientists at Bristol Myers Squibb from the comfort of your classroom! Bristol Myers Squibb is at the forefront of discovery while working alongside cutting-edge technology. Ask your questions, explore career pathways and learn about the robots that assist in medical products.
