

Fortifying the foundational building blocks for healthy child development

WWW.MAYASAPROGRAM.ORG

Mayasa is a comprehensive behavior support program that provides guidance to schools in creating an ecosystem of care and support, utilizing a trauma informed lens to address the multi-faceted challenges of stress and adversity on student behavior and learning. Support services include:

<u>DISTRICT</u>	<u>SCHOOLS</u>	<u>STAFF</u>	<u>STUDENTS</u>
Assessment & Standardization of District Wide Behavior Support Systems	Design and Implementation of Comprehensive School Wide Behavior Support System	Staff Coaching and Professional Development: Behavior Support & Trauma Informed Care Practices	Trauma informed Therapeutic Services: Counseling and Case Consultations.

BUILDING AN ECOSYSTEM OF CARE AND SUPPORT: SST AND I&RS TRAININGS

During this school year, you will participate in Monthly Professional Development Sessions as it relates to SST/I&RS. The objectives will be as follows:

- ★ To build a *shared understanding* of the framework and essential components of Student Support Teams (SST) and Intervention and Referral Services (I&RS)
- ★ To build a *collaborative community* of support and learning to identify I&RS and SST program implementation strengths and challenges and share best practices and resources.
- ★ To create opportunities for behavior support staff to be *active partners* in the refinement and standardization of district wide SST and I&RS practices.
- ★ To *deepen your understanding* of the impact that adversity has on brain development, learning and behavior to enhance utilization of trauma informed care interventions and school-wide practices.
- ★ To equip behavior support staff with *tools and resources* to support I&RS, SST and trauma informed care implementation
